Education

Grand Canyon University, Colangelo College of Business

Master of Science in Business Analytics, 2025 / GPA: 3.31

Bachelor of Science in Business Analytics, Minor in Accounting, 2023 / GPA: 3.26

Projects

Supply Chain Performance & Inventory Risk

- Analyzed 1,000 purchase orders across 5 suppliers, 5 categories, and 5 warehouses using Python and 5 SQL queries in SQLite — surfacing that Supplier C has a 49.3% on-time rate with \$3.1M spend at risk (50.2% of their total spend)
- Delivered a 2-page Power BI dashboard with conditional formatting heat-mapping supplier reliability from red to green, identifying Chicago as the lowest-performing warehouse (56.5% on-time) and December 2024 as the worst month (42.9% on-time)

NBA Salary & Performance Analysis

- Built an end-to-end player value pipeline across all 6 tools (Python, R, SQL, Power BI, Excel), engineering a custom Points-per-Million cost-efficiency metric and writing 5 SQL queries to surface overpaid players, hidden gems, and team payroll benchmarks
- Delivered a 3-page Power BI dashboard and 6-sheet Excel workbook identifying the league's worst value contract (\$47M player with minimal playing time) and Point Guards as the highest-paid position on average

Professional Experience

Honeywell Aerospace – Engineer Program Management Intern Phoenix, AZ | June – September 2025

- Collaborated with cross-functional engineering, operations, and automation teams to document and refine user requirements, translating business needs into Tableau dashboards and automated reports that enhanced visibility and decision-making.
- Partnered with the EDM Automation team to modernize and standardize dashboards organization wide, improving data accuracy, usability, and scalability while reducing manual reporting efforts
- Developed analytics solutions aligned with aerospace industry standards for reliability, compliance, and performance tracking, contributing to operational excellence in a highly regulated environment.

Leslie's Pools – Retail Operations Intern | Summer 2024

- Conducted stakeholder interviews with district managers to identify operational performance gaps and reporting needs across 950+ store locations.
- Designed and implemented a Power BI scorecard dashboard tracking fulfillment rate, foot traffic, and sales, increasing data visibility and enabling faster, more informed leadership decisions.
- Partnered with the data engineering team to build SQL queries and Excel dashboards (VLOOKUP, XLOOKUP, PivotTables) that fed the scorecards and tracked field engagement metrics.

Other Experience

Raven Golf Club – Outside Service

August 2021– October 2022

Ken McDonald Golf Course – Outside Service

January – November 2020

- Provided direct, hospitality-driven service to club members and guests in a high touch, client facing role, building rapport quickly and maintaining professionalism in an affluent client environment.

Technical Competencies: Advanced Excel, Power BI, SQL, Tableau, Python, and R Studio
